| 2. Measures taken to complete the syllabus of courses and programs. | | Being an affiliated college we have less autonomy in prescribing academic calendar. The institution used ICT in education to support, enhance, and optimize the delivery of education during the pandemic period. The effective delivery of contents is done by the faculty through the combination of technology with traditional mode of instruction so as to engage students for long term learning. A virtual class room is created by each faculty for each subject where all academic contents are provided to the students in a comprehensive manner. Each student and faculty is allotted with individual G suit mail IDs through which also dissemination of academic information takes place. This apart, the video classes and relevant subject materials are uploaded to EERPMS portal where the students and parents have individual password protected access. Regular online video classes were conducted to complete the syllabus on-time. The whole campus has been supported with high speed Wi-Fi enabled internet connectivity which helps the faculty and students in uninterrupted browsing. Each class room is fitted with a LCD projector through which the knowledge delivery takes place in techno based mode. Through the video conferencing facility available in the campus live and expert lectures are shown to the students.
